

REMARKS

Applicant appreciates the indication of allowable subject matter in the Office Action.

The specification has been amended as requested to include appropriate headings, to remove references to the claims, and to address other informalities therein. Approval of the amended specification is respectfully requested.

The objection to the Abstract has been considered. Attached is a marked-up substitute Abstract deleting the reference to Figure 3 as requested, and addressing other informalities therein. Approval of the substitute Abstract is respectfully requested.

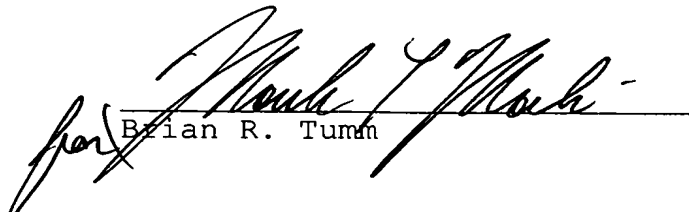

The rejection of Claims 1-7 under 35 USC §112, second paragraph, as being indefinite has been considered.

Claims 1-7 have been amended to address the issues set forth at page 3 of the Office Action and to address other informalities therein. The amendments to Claims 1-7 are not believed to include any new matter. Therefore, withdrawal of the rejection under 35 USC §112, second paragraph, is respectfully requested.

New dependent Claim 8 further limits the claimed invention and is believed allowable as being dependent on allowable Claim 1.

In light of the foregoing amendment and the remarks, the claims are believed to be in condition for allowance. Further and favorable consideration of this application is respectfully solicited.

Respectfully submitted,

  
Brian R. Tumm
